

Next Generation Transportation System, "Ha:mo"

Ha:mo : Harmonious Mobility Network

Ha:mo is a transportation system that supports seamless and comfortable transfer in addition to solving local transportation issues through optimal combination of personal/public transportation.

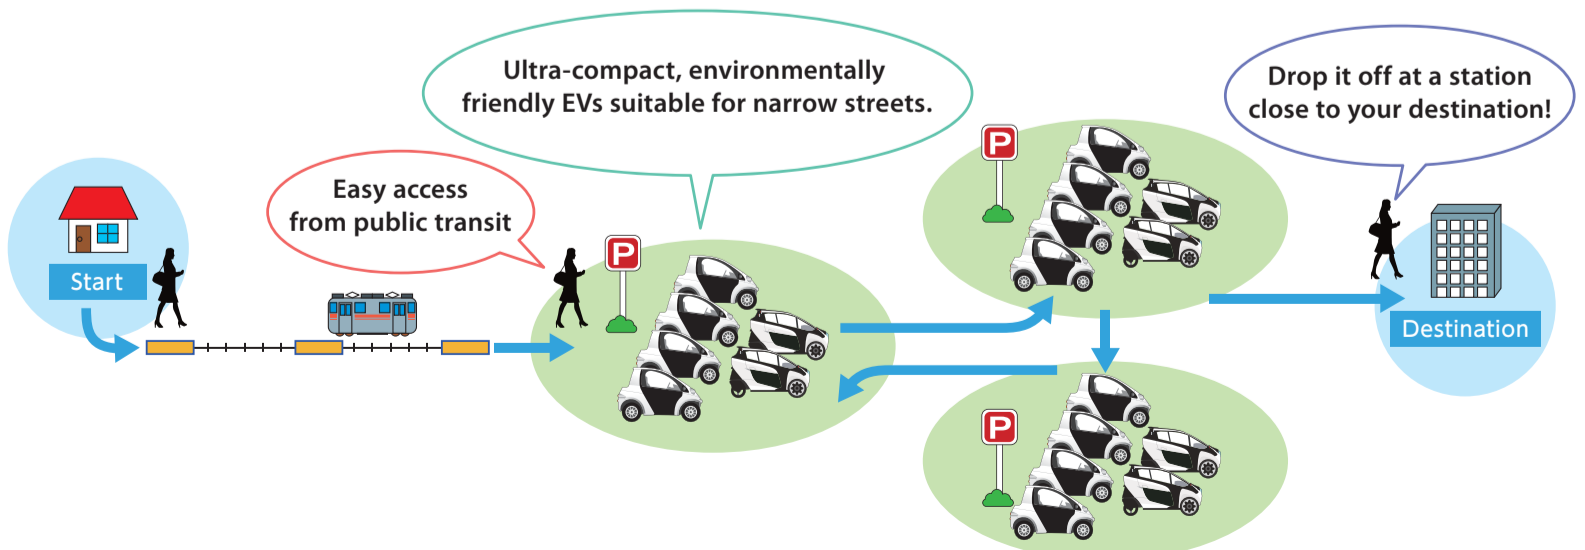

Ha:mo's Three Goals

- Society with freedom of movement
- Revitalizing of local communities
- Environmentally friendly society

Ha:mo RIDE: An Ultra-Compact Mobility Sharing Network

Ha:mo RIDE is linked with public transportation and utilizes ultra-compact EV sharing to provide the "last mile" transportation to your final destination.
